Sally's Suitcase

The narcissus is my favorite flower. A lot of them grow around ponds, bending their heads toward the water.

When Narcissus was a child, a prophet warned them at his birth that his beauty would cause him some problems. His parents were worried, so, they didn't keep any mirrors in their home. Many years passed. Narcissus grew, becoming even more attractive.

When he was 16, Narcissus went into the woods. The nymph Echo saw him and fell madly in love. She tried to embrace him, but he rejected her. She was heartbroken. Nemesis heard the story. To punish Narcissus, Nemesis created a pond in the woods. Narcissus saw his own face in the reflection and fell in love! When he realized he could never find anyone else so beautiful, he died of sorrow.

Learning Points

The Simple Past Tense

When you make questions and negatives in the Simple Past tense, you use *did*.

Questions are formed by adding *did* before the subject and the verb.

Example: *When did he go into the woods?*

Negatives are formed by adding *did* and *not* after the subject.

Example: *They didn't keep any mirrors in their home.*

Remember that when we use the auxiliary *did* or *didn't* the verb does not have to be written in past.

Correct:

What did Narcissus say to the nymph?

Narcissus didn't love the nymph.

Incorrect:

What did Narcissus said to the nymph?

Narcissus didn't loved the nymph.

Quantifiers

You use a quantifier before a noun to indicate the amount or number of an item.

Quantifier	Meaning
more	a larger number/amount
less/fewer	a smaller number/amount
no/none	0
any/not any	ask about a number or amount/say there is no
some	a small number/amount
a lot of/lots of	a very large number/amount
plenty of	more than you need
enough	as much as you need

You use quantifiers with both count and non-count nouns. You can use all of the quantifiers below with both count and non-count nouns.

Examples:
